

# Motion Activated PAR38

## Application

- Residential & Commercial site
- Garage
- Front door
- Garden
- Courtyard

## Features

- Never in the dark with motion PAR38 lamp
- Sensors are triggered to light bulb when people, animals, or cars moving detected
- Easy to install, just screw the light bulb with motion into your existing E26 base
- More suitable for outdoor use because of wider detection range, and strong penetrating power
- Wet location for better weatherproof application
- ENERGY STAR® motion sensing PAR38 lamp offers a better energy saving solution

Product Code	PAR38 120WE
Input Voltage/Frequency	120V/60Hz
Rate Power	13W
Lumens	1200lm
CCT	3000K
UL Location	Wet
Rate Lifetime	25000hrs
Certificate	UL, Energystar
Ambient temperature range	-4°F~+104°F (-20°C~+40°C)
Storage temperature range	-4°F~+176°F (-20°C~+80°C)
