HOME WEATHERIZATION

Air Sealing Kit

Foam Outlet
Gasket

Door Seal Strip

Door
Sweep

Foam
Sealant

Elevate Your Comfort.

Conserve energy with our Air Sealing Kit, by sealing up common places in your home. Install weather strips and gaskets to seal gaps around doors, windows and outlets. Prevent costly drafts from non-sealed doors by installing door sweeps and door seal strips.

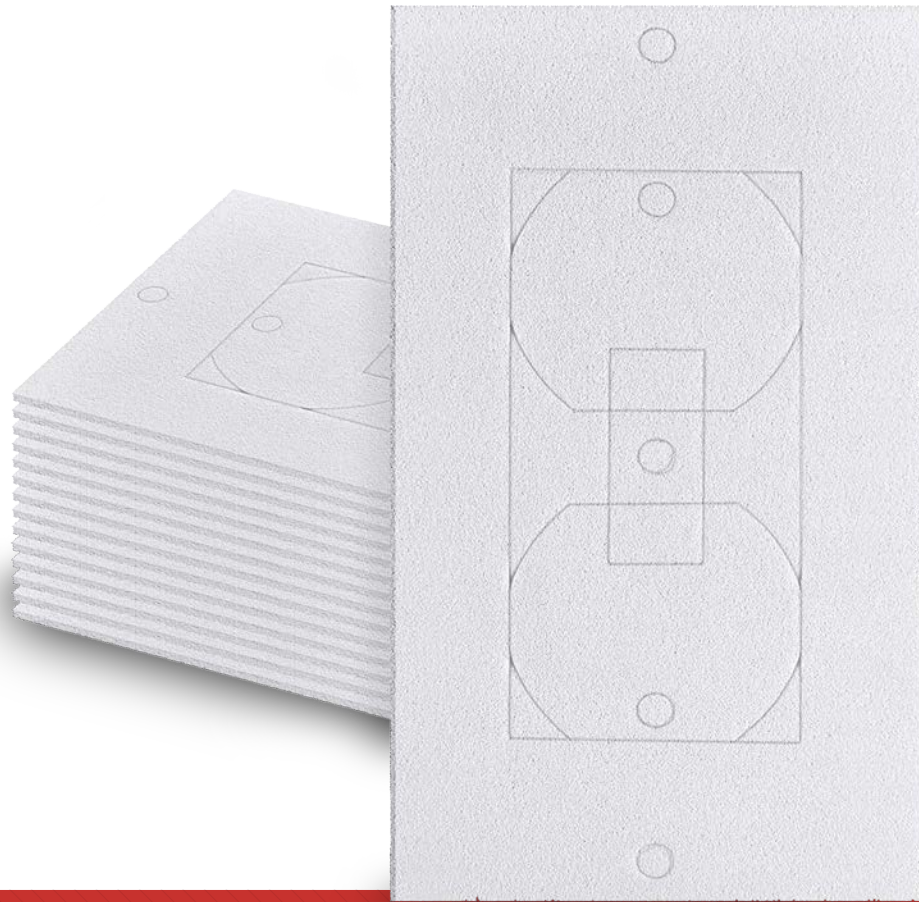

Our Air Sealing Kit Includes:

- 6: Foam Outlet Gaskets
- 3: Window & Door Seal Strips
- 2: Foam Sealants
- 1: Door Sweep

HOME WEATHERIZATION

Foam Outlet Gaskets

Insulation to Meet Your Needs.

When air escapes through passages such as dryer vents or small holes in your home, it pulls through air from the rest of your home as it escapes. Save money by preventing unnecessary air flow in your walls.

- Lightweight, Windproof, Soft, Insulating EVA
- A Sealed Outlet Means Gas Can Not Easily Escape
- Simple to Install, Saving You Space and Time

HOME WEATHERIZATION

Soundproof Window & Door Seal Strip

Seal Your Home in Style.

Reduce the noise from outside and the sliding door slamming while giving you a quiet and comfortable living environment.

- Ensures the Tape Will Stay in Place
- Made from Harmless CR Foam and Neoprene
- Easy to Peel Off Strip, No Tools or Drilling Needed
- May Be Used for Weather/Sound/Dust/Heat Proof, Oil/Corrosion Resistance, Shock-Absorbing, Buffering and Anti-Skidding

HOME WEATHERIZATION

Gaps & Cracks Spray Foam Sealant

Say Yes to Premium Durability.

Tite Foam Gaps & Cracks is a new generation of polyurethane-based insulating foam sealant. It expands to fill, seal, and effectively insulate gaps and cracks up to 1" in size.

- Polymer Foam Based Withstands Harsh UV Rays
- Uniform Cell Structure for Durability & Overall Insulation
- Handles Movement Over Time Without Compromising Seal
- Bonds to Wood, Concrete, Brick, Stone, Metal, PVC

HOME WEATHERIZATION

Self Adhesive Door Sweep Draft Stopper

Keep a Comfortable & Clean Home.

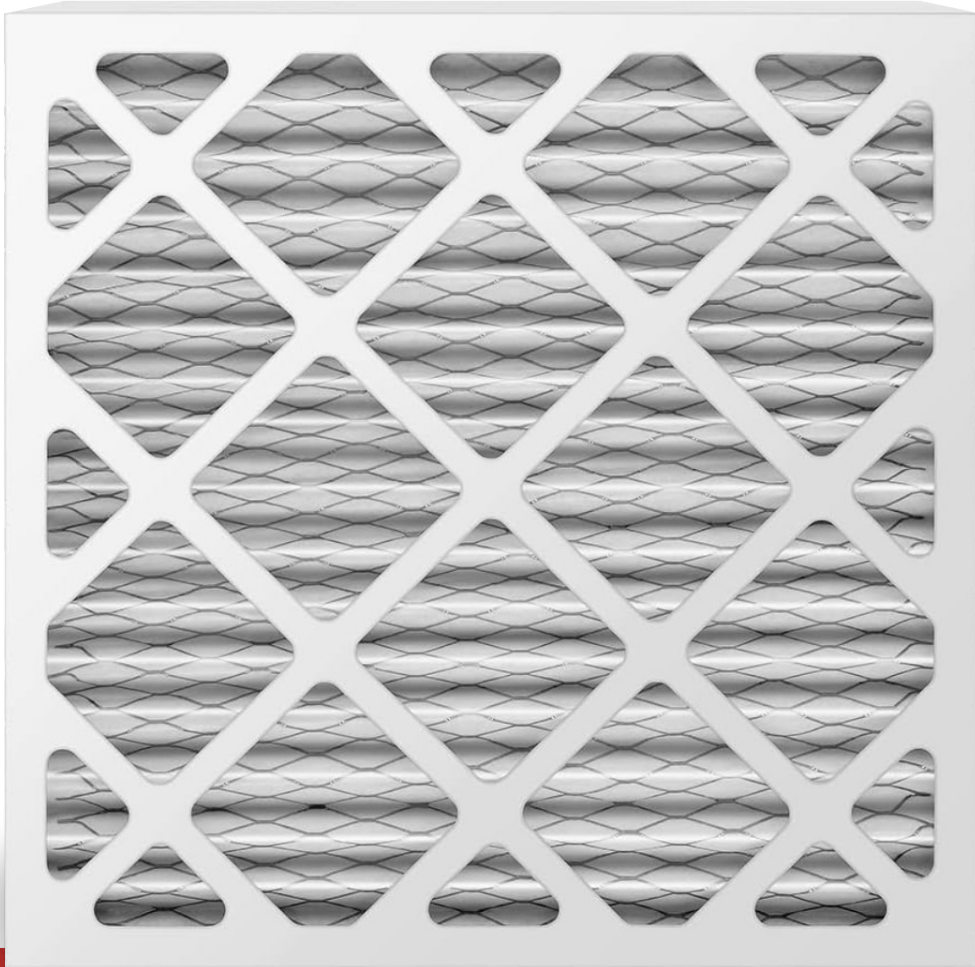

Our door sweep is useful to prevent dust, light, sound, moisture, smoke, insects and weather from entering under the door, while keeping your home safe and clean.

- Prevent Bugs and Snakes from Sneaking In
- Prevent Air Drafts and Sand from Getting In
- Reduces Noise Level from Inside and Outside
- Minimize Unwanted Air Flow – Keep Cold Air In and Hot Air Out

HOME WEATHERIZATION

HVAC Air Filter

Make Your Home a Sanctuary.

Our filter replacement features an advanced design to help capture larger airborne particles such as lint, fibers, pet hair and fur that pass through the filter.

- Protects Homes From Dust, Pollen, and More by Trapping 90% of Airborne Particles Without Impacting Air Flow
- Industrial Grade Beverage Board Frames with Dual Wire Backings Improve Structural Integrity and Outperform Standard Cardboard Designs

HOME WEATHERIZATION

Self Closing Exhaust Fan Seal

Prevent Backdrafts. Save Energy.

Our fan seal is an innovative way to block unwanted airflow between the ceiling space and your home through ceiling exhaust fans when they are switched off. The simple one-way vents allow normal airflow when the fan is on.

- Can be Installed Inside the House With No Ceiling Access Required
- Keeps the Cool Air In and the Hot Air Out
- Lightweight Polycarbonate Construction
- Easy to Install
- Fire Resistant

HOME WEATHERIZATION

Window Insulation Kit

Keep Drafts Out!

Our easy-to-use kit contains plastic shrink film and double-sided tape to seal windows airtight to help eliminate condensation, cold drafts and heat loss. An ideal, low-cost way to save energy and reduce heating and cooling costs while remaining airtight.

- Help Eliminate Condensation, Cold Drafts and Heat Loss
- Save Energy and Reduce Heating and Cooling Costs
- Shrinks Tight for Wrinkle-Free, Clear-as-Glass Results
